5. Online-based Audio and Video Conferences (Conference tools)

Data processing

We use online conference tools, among other things, for communication with our customers. The tools we use are listed in detail below. If you communicate with us by video or audio conference using the Internet, your personal data will be collected and processed by the provider of the respective conference tool and by us. The conferencing tools collect all information that you provide/access to use the tools (email address and/or your phone number). Furthermore, the conference tools process the duration of the conference, start and end (time) of participation in the conference, number of participants and other "context information" related to the communication process (metadata).

Furthermore, the provider of the tool processes all the technical data required for the processing of the online communication. This includes, in particular, IP addresses, MAC

addresses, device IDs, device type, operating system type and version, client version, camera type, microphone or loudspeaker and the type of connection.

Should content be exchanged, uploaded, or otherwise made available within the tool, it is also stored on the servers of the tool provider. Such content includes, but is not limited to, cloud recordings, chat/ instant messages, voicemail uploaded photos and videos, files, whiteboards, and other information shared while using the service.

Please note that we do not have complete influence on the data processing procedures of the tools used. Our possibilities are largely determined by the corporate policy of the respective provider. Further information on data processing by the conference tools can be found in the data protection declarations of the tools used, and which we have listed below this text.

Purpose and legal bases

The conference tools are used to communicate with prospective or existing contractual partners or to offer certain services to our customers (Art. 6(1)(b) GDPR). Furthermore, the use of the tools serves to generally simplify and accelerate communication with us or our company (legitimate interest in the meaning of Art. 6(1)(f) GDPR). Insofar as consent has been requested, the tools in question will be used on the basis of this consent; the consent may be revoked at any time with effect from that date.

Duration of storage

Data collected directly by us via the video and conference tools will be deleted from our systems immediately after you request us to delete it, revoke your consent to storage, or the reason for storing the data no longer applies. Stored cookies remain on your end device until you delete them. Mandatory legal retention periods remain unaffected.

We have no influence on the duration of storage of your data that is stored by the operators of the conference tools for their own purposes. For details, please directly contact the operators of the conference tools.

Conference tools used

We employ the following conference tools:

Microsoft Teams

We use Microsoft Teams. The provider is the Microsoft Ireland Operations Limited, One Microsoft Place, South County Business Park, Leopardstown, Dublin 18, Ireland. For details on data processing, please refer to the Microsoft Teams privacy policy: <https://privacy.microsoft.com/en-us/privacystatement>.

Data processing

We have concluded a data processing agreement (DPA) for the use of the above-mentioned service. This is a contract mandated by data privacy laws that guarantees that they process personal data of our website visitors only based on our instructions and in compliance with the GDPR.

6. Our social media appearances

Data processing through social networks

We maintain publicly available profiles in social networks. The individual social networks we use can be found below.

Social networks such as Facebook, Twitter etc. can generally analyze your user behavior comprehensively if you visit their website or a website with integrated social media content (e.g., like buttons or banner ads). When you visit our social media pages, numerous data protection-relevant processing operations are triggered. In detail:

If you are logged in to your social media account and visit our social media page, the operator of the social media portal can assign this visit to your user account. Under certain circumstances, your personal data may also be recorded if you are not logged in or do not have an account with the respective social media portal. In this case, this data is collected, for example, via cookies stored on your device or by recording your IP address.

Using the data collected in this way, the operators of the social media portals can create user profiles in which their preferences and interests are stored. This way you can see interest-based advertising inside and outside of your social media presence. If you have an account with the social network, interest-based advertising can be displayed on any device you are logged in to or have logged in to.

Please also note that we cannot retrace all processing operations on the social media portals. Depending on the provider, additional processing operations may therefore be carried out by the operators of the social media portals. Details can be found in the terms of use and privacy policy of the respective social media portals.

Legal basis

Our social media appearances should ensure the widest possible presence on the Internet. This is a legitimate interest within the meaning of Art. 6 (1) lit. f GDPR. The analysis processes initiated by the social networks may be based on divergent legal bases to be specified by the operators of the social networks (e.g., consent within the meaning of Art. 6 (1) (a) GDPR).

Responsibility and assertion of rights

If you visit one of our social media sites (e.g., Facebook), we, together with the operator of the social media platform, are responsible for the data processing operations triggered during this visit. You can in principle protect your rights (information, correction, deletion, limitation of processing, data portability and complaint) vis-à-vis us as well as vis-à-vis the operator of the respective social media portal (e.g., Facebook).

Please note that despite the shared responsibility with the social media portal operators, we do not have full influence on the data processing operations of the social media portals. Our options are determined by the company policy of the respective provider.

Storage time

The data collected directly from us via the social media presence will be deleted from our systems as soon as you ask us to delete it, you revoke your consent to the storage or the

purpose for the data storage lapses. Stored cookies remain on your device until you delete them. Mandatory statutory provisions - in particular, retention periods - remain unaffected.

We have no control over the storage duration of your data that are stored by the social network operators for their own purposes. For details, please contact the social network operators directly (e.g., in their privacy policy, see below).
